**PURPOSE:** The purpose of the Motion Graphics Certificate Program is to introduce students to the concepts and techniques needed for a motion graphic designer. Students explore image creation, designing for the web, and animation and motion graphics.

This certificate provides students who already have a degree a topic of study as a designer. This certificate is also a great access point to begin the Interaction Design Associate of Science (two-year) Degree Program.

All of the classes in this certificate are offered online; many of the classes are offered in a face-to-face classroom. Students may choose to take the class in either format.
