

Updating D2L Course NavBars (adding / removing tools)

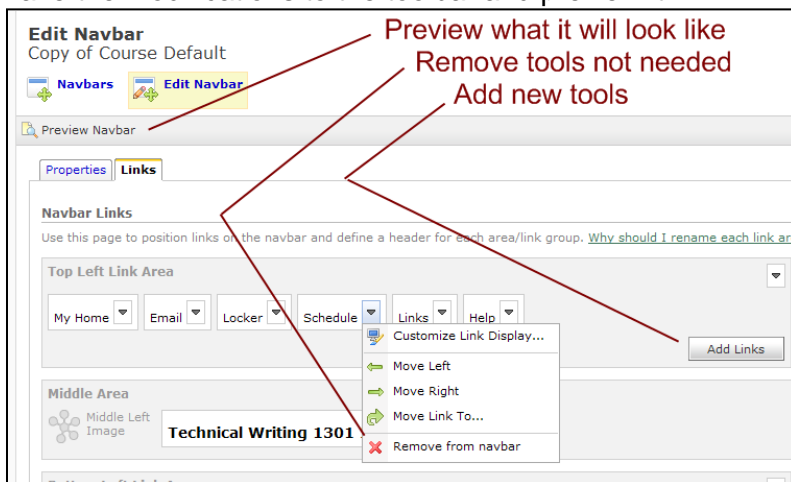

James Falkofski – Director of Online Learning – St. Cloud Technical and Community College

This shows the process for updating your Course Navigation Bars (Nav Bars).

Go into your course using EDIT COURSE > NAVIGATION
Find the COURSE DEFAULT template and make a copy of it.
You can name the new version anything which makes sense to you.

Make the modifications to the toolbar and preview it.

Return to the NAVBARS area (press the NAVBARS button)
Use the CHANGE button to specify which NAVBAR should be used for this course. Then press the APPLY button.
